

AN INTRODUCTION TO DEEP LEARNING WITH KERAS

This first meeting of the deep learning club following its reorganization will provide an introduction to deep learning, including an interactive demo. Previous experience with deep learning is not required. Stick around until the end to give us your input on what you would like to see in the future!

Tuesday, MARCH 10th, 4:30 – 5:30 pm
Location TBD

Please bring a laptop to follow along with our interactive demo using Google Colab – no installations required!

RSVP TO: <https://forms.gle/sDxYSqJTbaCmAVY3A>
