

LAWSON HEALTH RESEARCH INSTITUTE

(Lawson)

is seeking outstanding candidates for

THE DR. FRANK PRATO RESEARCH CHAIR IN MOLECULAR IMAGING

Lawson Health Research Institute (Lawson) seeks applicants for the endowed Dr. Frank Prato Research Chair in Molecular Imaging, administered through the St. Joseph's Health Care London Foundation. The successful applicant will be based primarily at St. Joseph's Health Care London and will provide leadership for Lawson's city-wide Imaging Program. The Dr. Frank Prato Research Chair in Molecular Imaging will join and lead the most integrated hospital-based medical imaging program in Canada.

Lawson is home to a vibrant multidisciplinary imaging research group (23 PhDs, 5 MDs and 3 MD/PhDs) with a long track record of innovations through the development of leading edge imaging technologies often introduced first to Canada (e.g. MRI(1982), Perfusion CT (2,000), PET/CT (2002) NIRS (2006), Photo/Acoustics (2008), PET/MRI (2012, Mega-slice CT (2014)). These imaging technologies drive preclinical and clinical research investigations by Lawson researchers associated with Lawson's inclusive city-wide research programs (e.g. cardiovascular, neurological sciences, neuropsychiatry, oncology, metabolism). Facilities include a cyclotron GMP radio-pharmacy laboratory, research-dedicated PET/3T MRI, PET/CT, 256 slice CT, and photoacoustic and near infra-red imaging technologies. Further details can be found at www.lawsonresearch.com.

The intent of this appointment is to build upon our current successful molecular imaging program and to grow a fledgling program in theranostics. Further, to grow local, national and international collaborations toward innovations in molecular imaging that are recognized internationally for excellence. The successful candidate will build strong relationships with clinicians, and provide leadership for current and future national and international initiatives.

The successful candidate will have a proven track record as a successful, independent scientist as evidenced by publication in top quality journals, strong record of supervising students and trainees, and a superior record of attracting external funding. The candidate will have evidence of successfully leading research teams and promoting interdisciplinary scholarship.

The Chair will be appointed as an Institute Scientist in at least one clinical department and at least one basic science department within the Schulich School of Medicine & Dentistry at Western University. The appropriate rank for the Institute Scientist position will be determined at the time of initial appointment. Applicants must hold a PhD or MD or MD/PhD in a relevant field. If an MD, the successful candidate must be eligible for licensure in the Province of Ontario in accordance with the appropriate licensing body and must be certified, or eligible for certification as a member of the Royal College of Physicians and Surgeons of Canada. Funding of this position is established through an endowment through St. Joseph's Health Care Foundation and paid through St. Joseph's Health Care London, with salary commensurate to qualifications and experience.

Potential applicants should forward, in confidence, a letter of intent, detailed curriculum vitae, statement of research interests, a documented record of research activity and leadership (including success in securing external funding support) and contact information of three references to:

Dr. David Hill, Scientific Director
Lawson Health Research Institute
St. Joseph's Health Care, 268 Grosvenor Street
London, Ontario, N6A 4V2
Canada
David.hill@lawsonresearch.com

Applications will be received until the position is filled. Anticipated start date will September 1, 2020 or as negotiated. Review of applications will begin after **March 31, 2020**.

Business Addresses:

Lawson Health Research Institute, 750 Base Line Road East, Suite 300, London, Ontario N6C 2R5,
www.lawsonresearch.com

Positions are subject to funding. Applicants should have fluent written and oral communication skills in English. Lawson invites applications from all qualified individuals. Lawson is committed to employment equity and diversity in the workplace and welcome applications from women, members of racialized groups/visible minorities, Aboriginal persons, persons with disabilities, persons of any sexual orientation, and persons of any gender identity or gender expression.

In accordance with Canadian Immigration requirements, priority will be given to Canadian citizens and permanent residents.

Accommodations are available for applicants with disabilities throughout the recruitment process. If you require accommodations for interviews or other meetings, please contact Sheila Fleming at Sheila.fleming@lawsonresearch.com or by phone 519-646-6100, ext 64672.
